

A New Chapter Begins

APRIL 6, 2026

Why This Change Matters

Our mission is to provide materials, programs, and a community center that meet the educational, cultural, recreational, and informational needs of all members of our community. The library has always welcomed residents across the VVS area, and our new identity better reflects that commitment.

As the library is supported by residents throughout the Vernon Verona Sherrill School District, it is important that our name represents the full community that sustains and benefits from our services.

This change aligns with our vision of a community empowered by knowledge, innovation, and inclusive access to information and positions the library to continue growing as a focal point of the VVS community well into the future.

What Changes On April 6

On April 6, 2026, the library will formally begin operating under its new name and visual identity, reflecting the entire VVS community.

The following updates will take place:

- The new name and logo will appear on all printed and digital materials moving forward
- The library website and social media platforms will reflect the new identity
- Public communications and marketing materials will transition to the new name

While our name and logo are changing, the programs, services, and welcoming atmosphere our community values remain the same.
